

**Geotechnical Engineer – Practice Group Leader  
Oakland, CA**

We are seeking a Senior Geotechnical Engineer to provide leadership and senior technical guidance for a range of Civil / Geotechnical Engineering projects throughout Northern California.

The ideal candidate must have at least 7+ years experience in geotechnical engineering, offering the abilities to lead and provide senior technical guidance on complex geotechnical engineering projects throughout California. Must have the skills to provide the leadership engineering expertise in stability, retaining wall, and slope analysis, foundation / pile design, as well as, providing project management, project scoping, budgeting, client relations, and overall profit/loss responsibilities for division. Candidates must also have previous experience and abilities leading business development activities for a division and interacting with government regulators for Caltrans roads/bridges, capital improvement, geothermal, solar, and land projects.

Requires a Degree in Civil Engineering, Geology or related discipline. MS Preferred. California registration as a Geotechnical Engineer required. Working knowledge of MSOffice applications. Excellent written and verbal communication abilities.

This is a Geotechnical Engineering Leadership opportunity with a growing organization in the San Francisco Bay Area; offering excellent compensation and benefits. Candidates with an existing Book of Business or small practice group will be given priority consideration.

For consideration please forward resume or contact directly:
