

**Regional Manager - Biologist / Planner – CEQA /NEPA  
Fresno, CA**

We are seeking a Regional Manager to oversee and manage the regional operations in the Central Valley / Fresno Region.

The ideal candidate would have experience as a Regional Manager / Senior Level Project Manager or Planner with 6 to 10 years of environmental planning, biology and/or project management experience related to the development of CEQA/NEPA documentation, as well as, direct experience managing regional operations for a mid sized environmental organization. Responsibilities will include total regional control of operations, sales, business plan development, budgeting, profit/loss expectations, client development, and staffing management of projects, as related to technical documentation for CEQA/NEPA compliance, environmental assessments and related environmental studies including but not limited to field studies, compliance documentation and technical assessment on large land use, natural resource, water, energy, transportation and municipal development projects.

Requires previous experience in managing a multidisciplinary team of professionals in performing CEQA/NEPA compliance and project review, ability to address technical issues and act as technical lead in interacting with clients on project details, and developing client relationships. Must have excellent communication and writing skills; possess the ability to be a mentor junior level personnel in career development stages, as well as, provide overall office staffing and management duties. BS and/or MS in Biology, Environmental Planning, Environmental Sciences, or related discipline. AICP Certification is preferred.

This is an Exceptional Career Opportunity, based in Fresno, California with a leading Environmental Consulting firm offering excellent compensation and benefits, based on experience and qualifications.
