

URS Corporation, ranked one of Engineering News-Record's list of the Top 500 Design Firms for Eight consecutive years is a leading provider of planning, design, systems engineering and integration, technology development, program and construction management, and operations and maintenance services to federal, state and local government agencies in the U.S., Fortune 500 corporations worldwide and government clients in Europe and Asia/Pacific. We're currently looking for an Environmental Planning Department Manager for our Sacramento, CA office.

Minimum Requirements:

Bachelor's Degree in a Science or Engineering field and a minimum of 15 years of related experience

Candidate must have a thorough understanding of environmental assessment programs (e.g., NEPA and CEQA) with a varied background matching that of our primary business sectors, such as water, power, and the public sector.

The candidate must have demonstrated success with managing large and complex NEPA/CEQA projects and leading business development activities such as preparation of large environmental assessment proposals.

This position requires experience balancing staff needs and managing people with operational requirements and business decisions. Successful candidates will have a professional demeanor, be efficient time manager, and have good organizational and interpersonal skills.

Candidate requires experience with P&L of a staff group, including all financial metrics, staffing decisions, strategic planning and daily operations.

Position Description:

The Natural Resources/Planning Department Manager is responsible for day to day operations of the department, as well as assisting in the leadership of the Environmental Services Division. As with any leadership/operations position, daily activities range from routine administrative paperwork to larger tasks such as setting the vision for the group.

This position includes managing large and complex NEPA/CEQA projects including obtain permits for large projects pertaining to Transportation, Power (including renewable resources), and Water Resources.

The Department Managers responsibility also includes the preparation and implementation of a successful business development program for the environmental assessment area.

At URS, we've have incredible opportunities for individuals who want visibility, to be recognized for some of the largest and most desirable projects in the Country. Come join our team!
