

**Transportation Planning Manager – Environmental
San Francisco, Ca**

We are seeking an Experienced Project Manager with 6+ years experience on Transportation Planning projects throughout the California Region.

The ideal individual would have previous experience managing transportation planning, railway, environmental policy and/or economic analysis aspects on projects. This would include having lead project manager experience, overseeing scopes of work, proposal development, budgets, manpower requirements, technical / scientific project details, and managing client relationships. Additionally, you must have abilities to provide emission source, GHG and climate change policy reduction strategies as related to transportation sources, as well as, land use / design strategies.

Position requires a bachelor's degree in Transportation Planning, Engineering or related discipline. MS preferred. Experience writing technical documentation and leading project groups desired.

For consideration please forward resume or contact directly:
